

Combi Super LAMINATOR

- Working speed up to 450 m / min
- Web width up to 1300 mm
- Unwind / Rewind roll diameter 1000 mm

KEY FEATURES:

- Flat (book type) 3 zones 7.5 meters long dryer with driven rollers and nozzles both above and below the moving web (stainless steel nozzles on request).
- The unique feature being that the solvent-based coating unit (rotogravure and semi flexo) is interchangeable on this machine.
- This machine has a portable coating unit only for solvent based coatings which can be inserted laterally with the help of the special pallet trolley.
- For solventless coating, both the steel metering rollers can be engaged and disengaged pneumatically making clean-up very easy.
- The laminating nip has an additional back-up roller to provide better optics in laminates.
- Two cooling rollers to bring the web back to room temperature to ensure uniformity in winding.

OPTIONAL:

- Cold Seal in Register.
- Registered lamination.
- Corona treater.
- Motorized smoothing bar for water-based coatings.
